round	4.3
slimlock & micro puk blade	4.4
prongs, eurohooks & specials	4.5
shelf brackets and panel supports	4.6
specialist slatwall accessories	4.7

Slimline offer a range of accessories to suit your particular display requirements. When choosing your accessories, it is important to specify whether you plan to use the accessory in Slimline's aluminium system

or whether it is intended to be used in Slimline's steel modular systems simply because each system works with slightly different sized sections. Finishes include Epoxy Powder Coating, Bright Chrome, Brushed Satin Chrome and Mirror or Satin Stainless Steel. Slimline can manufacture accessories specifically to customers' requirements or they can be chosen from a standard range classed under seven distinct product classes.

SLIMLINE™ how to order an accessory

This section uses a key (see below) to identify system compatibility and can be found below each accessory.

For example. A round stepped arm 300mm long, code **SL553** required for slotted channels is: (see page 4.3 / 02)

SL553. **01**
 (Denotes part) (Denotes system)

Finishes are also denoted against each accessory as follows:

- BC** – Bright Chrome (Mirror)
- SC** – Satin Chrome (Brushed)
- SS** – Satin Stainless Steel (Brushed)
- PS** – Polished Stainless Steel (Mirror)
- PC** – Powder Coated Steel
- SA** – Silver Anodised

Therefore a round stepped arm 300mm long in Bright Chrome for slotted channel is **SL553.01.BC**

SL553. **01.** **BC**
 (Denotes part) (Denotes system) (Denotes Finish)

Please follow this procedure for ordering all accessories.

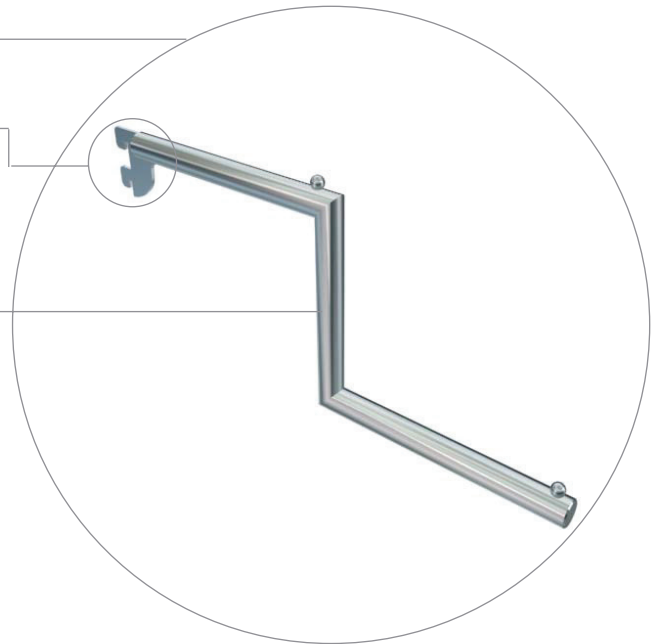

Most accessories are available in Chromed and Painted finishes with a limited range available in Stainless Steel.

If the required accessory is not depicted showing the system or finish you require, please enquire from us to see if it is possible.

Certain tube profiles cannot be obtained in Stainless Steel so often a Brushed Satin Chrome finish can be substituted to match other accessories required in a Satin Stainless steel finish.

We will also fabricate bespoke accessories to suit your individual requirements or designs. Please enquire for price and lead time on these.

Due to the thinner wall thickness of the mild steel slotted tubes please state when accessories are required for this system.
